

CHEMZ *Contact Cleaner*

Part No. 7115 (500ml / 380g)

Precision electrical and electronic equipment cleaner

- Cleans Sensitive Components
- Gentle but effective cleaner
- Harmless to paint, plastic and rubber
- Residue free

Chemz Contact Cleaner is a blend of high performing inert cleaning solvents for use on all electronic and precision equipment.

Chemz Contact Cleaner is a plastic safe formula which is quick to penetrate in tight tolerance areas, has rapid evaporation and leaves no residue.

Chemz Contact Cleaner removes light greases, oils, dirt and organic contaminants.

Chemz Contact Cleaner is harmless to paint, plastic and rubber and contains no CFC's or chlorinated solvents and has low toxicity levels.

Chemz Contact Cleaner is a precision cleaner for use on contacts, relays, switches, terminals, sockets, circuit breakers, computers, tape heads, rollers, audio visual equipment, printed circuit boards, laboratory and electromechanical equipment.

Chemz Contact Cleaner is ideal for use in the auto electrical industry for cleaning electronic contacts and connections.

Technical Data

Appearance	Clear colourless liquid
Odour	Light hydrocarbon
Vapour Density (Air = 1)	>1
Reduction of Contact Resistance, mOhm	<2
Specific Gravity	0.67
Volatiles, %	100
Flashpoint, °C	<0 (Propellant)
Propellant	Hydrocarbon
Flammability	Highly flammable. Do not use on energised equipment

MPI Approved C12 (All animal products except dairy)
