Safety Data
Sheet

Standard Conical Spray

Chemz Fluoro Marking Paints are high-visibility aerosol paints designed for fast, accurate marking in a wide range of applications. Available in eight bright, high-opacity colours that comply with WorkSafe NZ Colour Guide standards, the range includes both standard spray nozzles and upside-down spray-through caps for easy ground marking. The strong, vivid colours ensure excellent visibility on various surfaces, even in demanding conditions. The user-friendly formulation is free from Toluene and MEK, making it safer for operators and the environment. Spray-through caps help reduce finger contamination and joint strain, while use with the Chemz Spray Wand further minimises back strain, improving efficiency and comfort during extended use.

CHEMZ HI-VIZ MARKER SPRAY

CODE : RWU 8114/ 8124/ 8134/ 8144/ 8154/ 8164/ 8174
USD 8214/ 8224/ 8234/ 8244/ 8254/ 8264/ 8274/ 8394

SIZE : 400ml

PROPELLANT: Hydrocarbon

CONTAINS: Heptanes 30 - 60%

PRECAUTIONS: Read label before use. Keep out of reach of children. Wash hands thoroughly after handling. Gloves and eye protection are recommended. Avoid breathing vapours/spray. Do not eat drink or smoke when using this product. Use only outdoors or in a well-ventilated area.

DIRECTIONS: Shake can until the agitator ball moves freely, then continue shaking for 1 minute. Hold the can upright (or upside down depending on the style) and spray onto surface. After use, turn the can upside down and spray to clear the valve.
